Specifications

The cardan chain for the overhead chain conveyor 1000 Series is equipped with guide and load rollers of hardened steel running on ball bearings. The standard version of the chain is lubricated for a working temperature of 250°C.

The guide and load rollers are also available in plastic with moulded-in ball bearings. For loads from 125 to 250 kg the cardan chain must be equipped with load bars.

Technical data

UTS min.	40,000 N
Max. load	125 kg per carrier
Load pitch	270 mm
Weight	6.3 kg per m
Horizontal curves	radius 500, 700, 1000 mm
Vertical curves	radius 1200, 2000 mm
